

ADT How To - Achieve Deep Linking set up - Part 1 - Generate a Deep Link (DL)

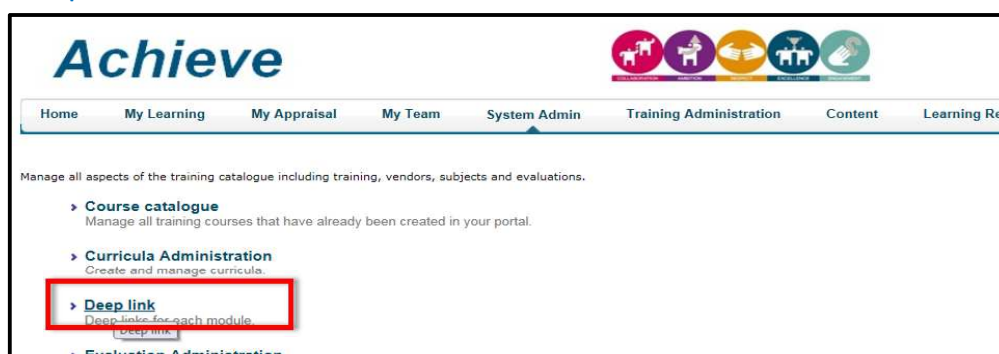

1) login to Achieve via the achievadmin user and password.

2) Click on the System Admin tab and then pick Catalogue

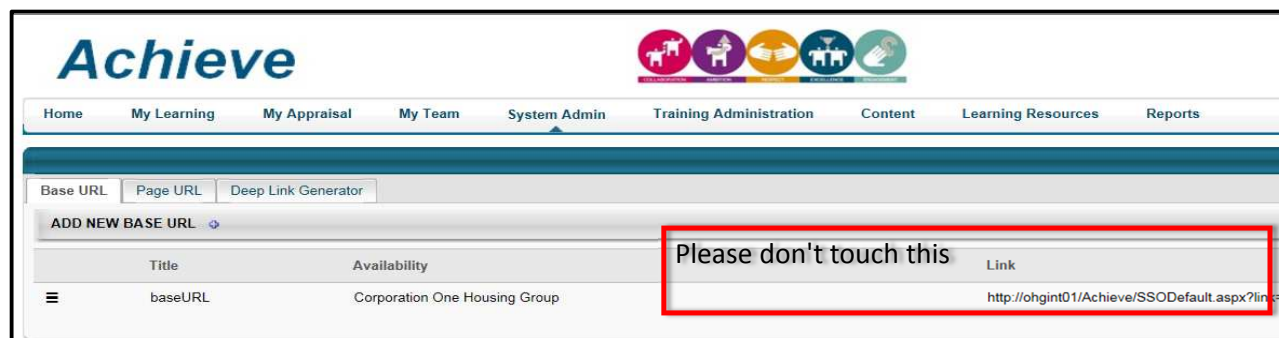

3) Click on the 'Deep Link' below

4) Here you will then see 3 x tabs. You should not alter the Base URL!

Instead, you need to add to the Page URL

This step creates a Deep Link that can then be referenced in the Deep Link Generator tab.

5) ignoring the base URL, click on the Page URL:
Currently all of these are available for Deep Linking

Achieve			
Home My Learning My Appraisal My Team System Admin Training Administration Content Learning Resources Reports			
Base URL Page URL Deep Link Generator			
ADD NEW PAGE URL			
Title	Area	Description	Link
Browse for Training	LMS	Navigates users to the new 'Browse for training' page.	/LMS/BrowseTraining/BrowseTraining.aspx
Calendar	LMS	Navigates to a view of the calendar depending on the parameters selected.	/LMS/catalog/EventsCalendar.aspx
Competency assessment summary	EPM	Navigates a user to their competency assessment summary.	/EPM/Compassment/UserCompetencies.aspx
Custom Reports	Reporting	Navigates to the default custom reporting page.	/analytics/Main.aspx
Dashboards	Reporting	Navigates to the default page for dashboards.	/Dashboard/DashboardView.aspx
Goals list	EPM	Navigates a user to their goals.	/EPM/Goals/GoalList.aspx
Knowledge Bank	LMS	Navigates a user to the Knowledge Bank page.	/LMS/KB/KBMain.aspx
Launch Training	LMS	Launches the training item for the user to participate in.	/deepink/LaunchTraining.aspx
LO details	LMS	Navigates a user to the details page for the specific learning object being deep-linked to.	/LMS/LoDetails/DetailsLo.aspx
Performance Reviews	EPM	Navigates a user to their performance reviews.	/EPM/Reviews/UserReview.aspx
Scheduled Tasks	EPM	Navigates a user to their scheduled tasks.	/EPM/scheduler/TaskReview.aspx
Standard reports	Reporting	Navigates to the default standard reporting page.	/reports/index.aspx
Topic Management	LMS	Navigates to the Topic Management page.	/LMS/connect/admin/topicmanagement.aspx
Transcript page	LMS	Navigates a user to their transcript page.	/LMS/UserTranscript/MainView.aspx
Documotive Training	LMS	Test	/LMS/LoActions/LoDetailEvent_o.aspx?Id=1c106cc1-16e8-4429-a3c8-f9c8b97da8468

6) To see this in action and to create a Deep Link (DL) for a user to access:

a) pick the Page URL

Achieve

[Home](#)
[My Learning](#)
[My Appraisal](#)
[My Team](#)
[System Admin](#)
[Training Administration](#)
[Content](#)
[Learning Resources](#)
[Reports](#)

[Base URL](#)
[Page URL](#)
[Deep Link Generator](#)

Page URL: **Browse for Training**
 Image: No image
 Alternate text:
 Link expiry date: ☐

Powered by Cornerstone OnDemand, Inc. ©2000-2014
 All Rights Reserved. [Terms](#) - [Privacy](#) - [Cookies](#)

b) depending on what your usage of the link will be, you can add image or alternative text, here we are just adding Alternative text

Achieve

[Home](#)
[My Learning](#)
[My Appraisal](#)
[My Team](#)
[System Admin](#)
[Training Administration](#)
[Content](#)
[Learning Resources](#)
[Reports](#)

[Base URL](#)
[Page URL](#)
[Deep Link Generator](#)

Page URL: **Browse for Training**
 Topic:
 Image: No image
 Alternate text: **Training Test Alan**
 Link expiry date: ☐

[Back](#)

c) after above, click on the Generate Links button

See that this gives you 2 x urls Default and SSO. Only use the SSO one.

select it as below and copy.

If using on a webpage, then it will be fine to use the entire DL from <a href..... To ... Like this:

```
<a href='http://ohgint01/Achieve/SSODefault.aspx?link=%252fDeepLink%252fProcessRedirect.aspx%253fmodule%253dbrowsetraining' title='Training Test Alan'>Training Test Alan</a>
```

If using for an email, however, cut out only this part of the DL :

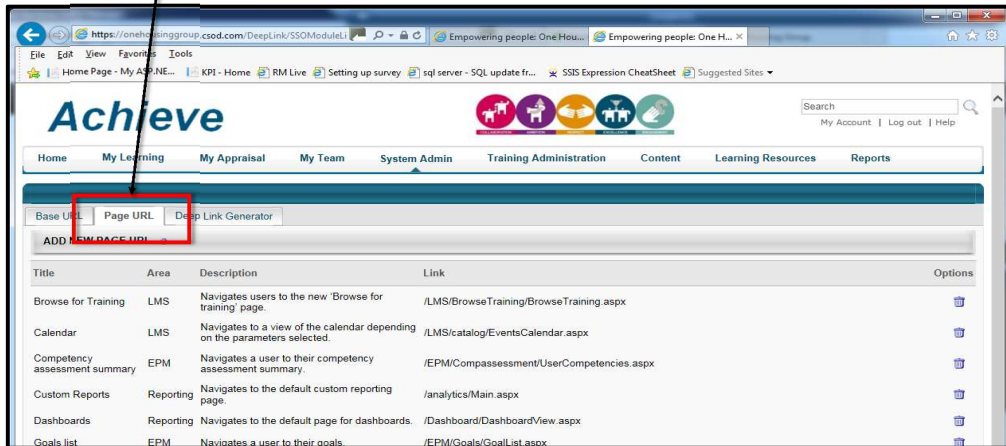

<http://ohgint01/Achieve/SSODefault.aspx?link=%252fDeepLink%252fProcessRedirect.aspx%253fmodule%253dbrowsetraining>

Pressing enter after the end of the text to change it to a hyperlink.

The screenshot shows the 'Achieve' system interface. At the top, there's a navigation bar with links: Home, My Learning, My Appraisal, My Team, System Admin, Training Administration, Content, Learning Resources, and Reports. Below this is a 'Deep Link Generator' section. It has a form with the following fields: Page URL (set to 'Browse for Training'), Topic (set to 'No image'), Image (set to 'No image'), Alternate text (set to 'Training Test Alan'), and Link expiry date (set to 'No image'). A 'Generate links' button is at the bottom right of the form. Below the form is a table with the following columns: Base URL, Base URL type, and Deep link. The table contains two rows: 'Default' and 'baseURL SSO'. The 'baseURL SSO' row is highlighted with a red box, showing the generated deep link code: Training Test Alan.

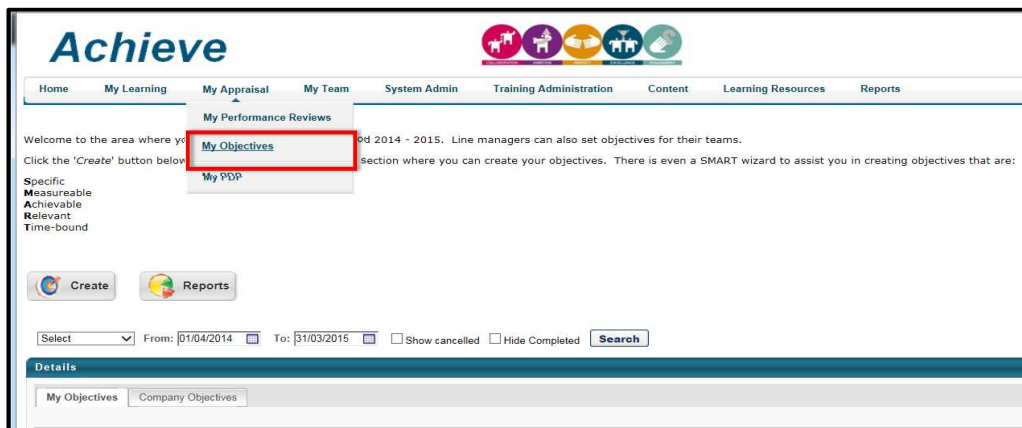

ADT How To - Achieve Deep Linking set up - Part 2 - Create a Page URL for DL

- 1) login with the achieveadmin user
- 2) Navigate to System Admin > Catalogue > Deep Link
- 3) click on the Page URL tab and view those currently available for DL

- 4) if you wish to DL something other than that listed, then follow this process

a) Navigate to the item you wish to form a DL for, in this example it is the My Objectives section.

c) copy the url or 'link' as below by clicking and selecting the text highlighted in blue.

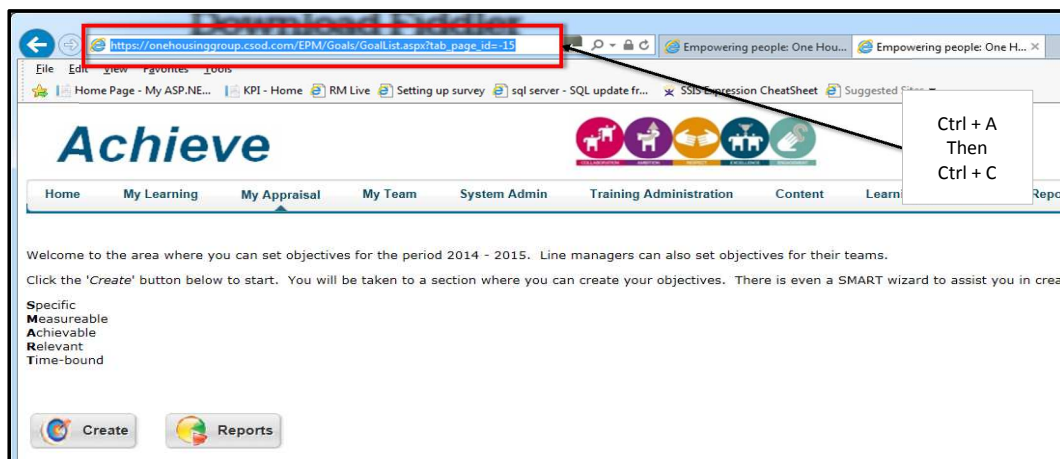

Copy this text, so it will be like this:

https://onehousinggroup.csod.com/EPM/Goals/GoalList.aspx?tab_page_id=15

We don't want the whole text for the Page URL creation, so remove all text up to .../EPM, like so:

/EPM/Goals/GoalList.aspx?tab_page_id=15

Copy this text and go back to the Page URL editing

d) When back in the Page URL screen, click on 'Add new page url'

Achieve

Home My Learning My Appraisal My Team System Admin Training Administration Content Learning Resources Reports

Base URL Page URL Deep Link Generator

ADD NEW PAGE URL

Title	Area	Description	Link
Browse for Training	LMS	Navigates users to the new 'Browse for training' page.	/LMS/BrowseTraining/BrowseTraining.aspx

e) Enter data in the New Page URL boxes as below - fitting your DL,

including the link copied and altered in step c above. Then click Save icon.

Achieve

Home My Learning My Appraisal My Team System Admin Training Administration Content Learning Resources Reports

Base URL Page URL Deep Link Generator

ADD NEW PAGE URL

It is in the 'Link' section where we pages the text created in step c above:

Title	Area	Description	Link
Test for How To	EPM	Testing that the DL work:	/EPM/Goals/GoalList.aspx
Browse for Training	LMS	Navigates users to the new 'Browse for training' page.	/LMS/BrowseTraining/BrowseTraining.aspx
Calendar	LMS	Navigates to a view of the calendar depending on the parameters selected.	/LMS/catalog/EventsCalendar.aspx

f) again click on the 'Deep Link Generator' tab

The new Page URL is available from the dropdown now

Select it and then just click the Generate Links button

Achieve

Home My Learning My Appraisal My Team System Admin Training Administration Content

Base URL Page URL Deep Link Generator

Page URL Image Alternate text Link expiry date

Test for How To

see that the new Page URL is available now

Generate Links

5) What to do with the DL now

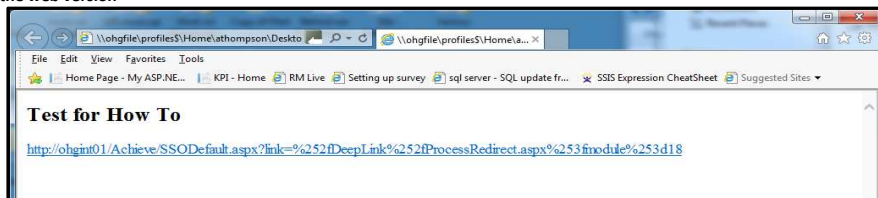

Here is the generated link:

a) Placing DL in webpage

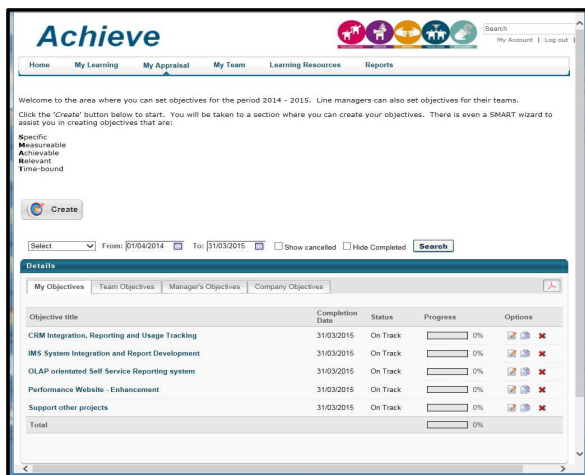

Here is how it would look in a basic webpage:

```
test_link_for_howto.html - Notepad
File Edit Format View Help
<html>
<head>
</head>
<body>
<h2>Test for How To</h2>
<a href="http://ohgint01/Achieve/SSODefault.aspx?link=%252fDeepLink%252fProcessRedirect.aspx%253fmodule%253d18">http://ohgint01/Achieve/SSODefault.aspx?link=%252fDeepLink%252fProcessRedirect.aspx%253fmodule%253d18</a>
</body>
</html>
```

and the web version

and (final test) if you click on the link above:

b) Alternatively seen in an email:

Noting the way the link has been edited to suit a user clicking on it.
